**MEMORANDUM FOR: Director of Central Intelligence**

**FROM: John Bross, Chairman  
DCI Advisory Commission on Multidisciplinary  
Counterintelligence Analysis**

1. Attached is a memorandum suggesting four names as possible candidates for the NIO position. Another that occurs to me is [redacted] John McMahon would recognize him.

2. In view of the discussion that took place at lunch about the O'Malley Committee and the possibility of reconstituting it as an operational committee, I suggest that you send a copy of our second memorandum to you which deals with this subject. Bill Webster may have been somewhat confused by the fact that no mention of the O'Malley Committee is contained in our report to the Senate.

4. Attached is a copy of the second memorandum in case you wish to send it to Judge Webster.

A rectangular box used to redact the signature of John Bross.
